Closing Rally of No-License Campaign -Town's Vote in Former Years-Leon Leavitt to Join British Navy.

In every church in the big town of Stonington sermons were preached Sunday in opposition to liquor license In addition there was a public rally in Stonington borough with clerical and lay speakers, and another rally in the Congregational church in Paw-catuck, where more than half the vot-ers of the whole town reside. These segments and these rallies were in colsermons and these rallies were in cul-mination of the work that has been actively carried on for weeks by earnest no-license advocates. On the other hand effective work has been carried on, along different lines, and by the cat-tread method, by the advocates of

COLLECTIONS IN WORLD Owned by Private Collector Between

Dvinsk and Petrograd.

(Special to The Bulletin.)

Washington, D. C., Oct. 3.—"One of the finest coin collections in the world is housed in the home of a private collector in Pskof, a city midway between Dvinsk and Petrograd, upon the Warsaw-Petrograd Railroad, along which the Germans are endeavoring to advance, and the collection is one of the most valuable things to be found in the country around this city-gateway to the immemorial lands of the Siav", according to a bulletin issued today by the National Geographic Society. "M. Plushkin, the proprietor of Pskof's principal drygoods store, is the owner and gatherer of the collection which has made him known in many foreign lands and which is easily the most interesting thing in the hoary city, once a republic and the rival of Novgorod the Great. together with concave coins of oking byzantium, square Swedish coins of brass, remarkable coins used by the republic of Pskof, and some Chinese coins of the year 2000 B. C. Rare specimens of the coinage of almost every nation of Europe are found in the collection. One of the oldest was started upon its career in the year 2300 B. C. and has seen more than 4000 years of existence, or has become quite old as most things go.

"The collection also contains numerous specimens of the paper money of various nations. The examples of Russian paper are particularly complete, some of the early specimens being unusually interesting. Among the early bills are a few as large as the ordinary diploma or legal document. Upon them are preserved the signatures of all the emperors and empresses who have ruled in Russia. Collectors, and curious visitors, from many lands have journeyed to the forsaken, decayed little town of Pskof and braved the inadequacies of its hotels in order to inspect M. Plushkin's renowned cabinet of coins."

The Selectmen present herewith their annual report of the business of the Town for the fiscal year just ended The accounts show the different expenditures, and likewise the receipts, derived from the various sources of revenue

A closer examination should be made of this report than has ever been given to similar financial statements of the Selectmen, because the Town's business has been much greater than in the past and of such consequence to the community that the taxpayers, in justice to themselves, should give it the most rigid scrutiny.

All the chief highways leading into the Town have been put in first-class condition, thus gaining the approval of the State Highway Commissioner, some of them being no longer an expense in any way to the Town, as they are accepted as part of the State's trunk highway lines, while the State relieves the Town of three-quarters of the expense of maintaining other roadways which have been placed in the excellent condition required to gain for them this very substantial State aid. An inspection of all these highways will make clear the State's reason for setting upon them the seal of its approval.

Matters at the Almshouse have been attended to with fidelity, it being intended that inmates shall be comfortable and shall be subject only to such rules as are proper for the health and general welfare of such a considerable community. The soil has been made to yield an abundant crop this year and the inmates of the house have given cheerfully much assistance to the management in different kinds of work.

There has been no waste in the expenditure for those who are attended to in the departments of Outside Poor, Insane, and Neglected and Dependent Children, and all have been given the care which their condition seemed to make neces-

Under the administration of your present officials, whose service has covered a period of six years, the debt of the Town has been reduced \$110,060.44, the reduction in 1915 being \$18,938.83. In 1913 the debts of all the school districts were added to the Town debt, but by careful management that very year there was a net reduction in the Town debt of \$16,867.17.

We ask this year for an amount equal to a tax of 434 mills, to cover the obligations arising from the Town's ordinary business, included in which will be a State tax of practically \$24,000, the sinking fund about \$8,800, and the legal payment to the City of Norwich for highway account \$18,000, these three items being equivalent practically to a three-mill tax.

The estimates submitted by the Town School Committee indicate that for school purposes there will be needed an amount equal to a tax of 61/4 mills. This requirement, with the 434 mills above mentioned for the ordinary debts, would mean a total tax of 11 mills, which is recommended. Should the annual Town meeting see fit to vote in favor of additional demands which may be made known through petitions, it will necessarily have to vote a larger-tax than that asked for herein.

All of which is respectfully submitted.

ALBERT W. LILLIBRIDGE, WILLIAM B. WILCOX, CHARLES P. BUSHNELL Selectmen of the Town of Norwich.
